MEMORANDUM

FOR THE MEMBERS OF THE RESTORATION ADVISORY BOARD (RAB) FOR THE INSTALLATION RESTORATION PROGRAM AT NAVAL WEAPONS INDUSTRIAL RESERVE PLANT (NWIRP) CALVERTON, NEW YORK

Enclosed is the Navy's Final Phase 2 RCRA Facility Investigation (RFI) Report for Installation Restoration (IR) Site 7 - Fuel Depot located at NWIRP Calverton, New York.

Information regarding this site was previously forwarded to Calverton's former Technical Review Committee (TRC) for review in a report dated January 19, 1998. Based upon comments received by the regulatory community as well as Calverton's Restoration Advisory Board (RAB), the Navy reformatted the environmental presentation using a GIS-based profiling program. This new data evaluation and presentation were the focus of a technical subcommittee meeting held on June 3, 1999, where it was determined that the nature and extent of contamination at this site was adequately characterized to allow the Navy to proceed to a Corrective Measures Study (CMS) for Site 7. The data was also presented at a RAB meeting held on June 10, 1999.

Efforts to prepare the CMS for Site 7 continue and a draft report will be forwarded for review under separate correspondence.

If you have any questions or would like to discuss the enclosed document further, please give me a call me at (610) 595-0567, extension 163.

Sincerely,

JAMES L. COLTER  
Remedial Project Manager  
By direction of the  
Commanding Officer

Enclosure: (1) Final Phase 2 RFI for Site 7
